Laden, GDM., Purdy, G., O'Reilly, G.

Aviation, Space and Environmental Medicine May 2007; 78(4) Section 1:523-525

Testimonials (Patient Experience)

"I am writing this to express my sincere thanks and utmost appreciation for the wonderful treatment I received from Mr. Augustine Akali I was very much impressed by his caring nature, politeness, dedication, attention to details and professionalism.... His confidence and affable nature provided me the impetus to undergo the surgery without any reservations because I was convinced that I was in the care of a very capable surgeon.... I cannot adequately thank Mr Akali for the excellent care he provided. In a way, I feel lucky and blessed that I was under the care of such a competent and caring surgeon."

Dr AK

"...I am delighted with the results which far exceeded my expectations..."

AL

"...I was immediately impressed by your expertise, but more importantly what a genuinely nice person you were and came away with complete confidence that you would be my daughter's surgeon..."

AC

"...Your bedside manner is wonderful and you are a very nice person and a brilliant surgeon. You made me feel at ease throughout. Many, many thanks."

JG

"Thank you so much for all your hard work rebuilding me!! It has changed my life"

WF

"...I would like to send my gratitude and thanks to Mr Akali whom has supported me from the beginning he has always been honest with any questions which I have and very understanding to my needs. I feel as does my family that he has not only given me my life back but he has also given back a mother to her children and a wife to her husband, I will forever be in his debt."

JF

"I am writing to say a big thank you for the care I received from Mr Akali and his team... Mr Akali has been fantastic, he is so dedicated to his profession, a true gentleman..."

SH

"...Mr Akali and his team have shown dedication above and beyond the call of duty and it is not an exaggeration to say they have given me my life back... I now have the confidence to carry out a very demanding job..."

BB

"I really can't thank you enough for all you have done for me! You have done an amazing job and I am feeling so much happier."

YC

"I would like to thank you all for your expertise in the operating theatre and your post-operative care and support. I am thrilled with the results; you have made me feel whole again."

FW

"I just wanted to say a big thank you for all your care and attention and of course my new figure!"

DL

"...I felt that I was treated as a person who mattered and not just as a number (as they say)... The care and attention you gave me as a doctor was second to none, it was excellent. You are a very caring, gentle, attentive doctor and a real asset to the patients under your care."

MW

"... Mr Akali has treated me with the utmost respect and care, focussing on the right course of action for me... I have found him to be the most caring, considerate NHS professional I have ever met... People generally associate breast surgery with vanity but I disagree; the lack of confidence ran deeper than that for me. I cannot begin to tell you what a difference the surgery has made to my life. Underwear fits better than it ever has, clothes do not 'pull', I feel confident enough to go swimming and to the gym. Family and friends have all commented on the difference it has made to my confidence and outlook on life.... I now feel 100% better physically and mentally, and look forward to my future."

FC

"Thank you for the care and patience you have shown me during a difficult time in my life. Words cannot express how grateful I am for your support."

NS

"...I cannot thank you enough I am so pleased with the results and I am sure that I will be my old self again in no time at all."

TP

"...Not only have you made me look better, I also feel a lot better about myself."

MJ

"Thank you so much for everything you have done for me. I will never forget your kindness and how you did everything you could to help me... What a very special and kind man you are."

GS

"Dear Mr Akali ... thank you for all that you have done for Natalie, these operations have made such a huge difference to her, she is not the unhappy and depressed person she was 2 years ago, we are so grateful for all you have done for her."

DS

Dear Mr Akali, words cannot thank you enough for the talents, expertise and kindness shown to me during my recent stay. You are so dedicated.... Thank you so much with deep appreciation and respect.
